

Improve Your Leadership Impact

Course Overview

Business transformation and ultimately business performance is achieved through *People, Process* and *Technology*. As these critical components to business success are evolving, are you also evolving as a leader?

In today's environment, leaders need to ...

- Covert business opportunities to value faster with less resources.
- Engage employees and retain your top talent.
- Guide a multi-generation workforce, while providing a safe and harassment-free environment.

Given the rapid advancement of technology – automation, cognitive / artificial Intelligence, digital transformation, business process outsourcing – new leadership behaviors are required to sustain business performance.

Are you a transformational leader who creates a culture of performance? Do you:

- Maximize your team's capabilities & capacity?
- Find new methods to solve complex problems?
- Adapt to changing technology?

Let our team of experienced leadership development facilitators get you started on the path to leadership excellence.

Value

- Improve commitment and performance from your organization, i.e., employee engagement
- Reduce attrition of top performers
- Recognize and reinforce the behaviors that prevent workplace harassment

Workshop Objectives

- Identify key organizational behaviors that directly impact – both positively and negatively – business performance.
